

Micron Home Wiring Hubs (often called Cable Distribution Enclosures or Structured Cabling Hubs) provide a simple and cost-effective cable management for TV, internet, intercom and phone wiring. All cables are terminated in the one spot and are easily accessed in a low profile, locked cabinet generally installed in the garage or a central walk-in cavity such as a closet area under the stairs.

MHKIT7 Home Wiring Hub Kit with Phone & Data Modules

MHBV7 Home Wiring Hub Enclosure with MHB7VT Adjustable Trim Kit & Panel Mounting Plates

MHKIT5 Home Wiring Hub Kit with Phone & Data Modules

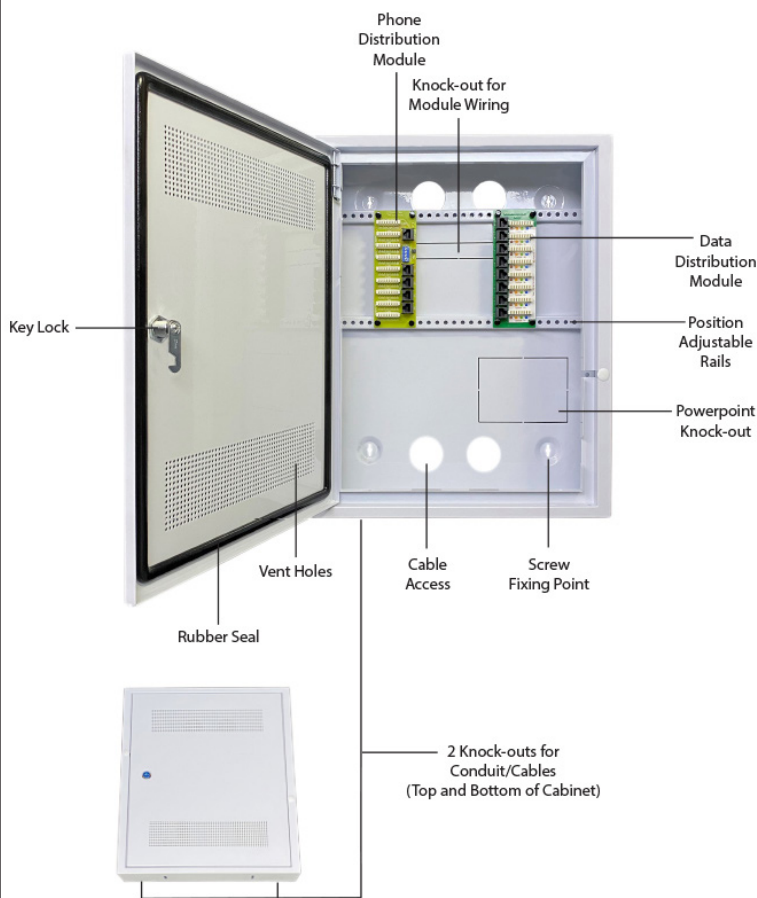

Micron Home Wiring Hub Features & Benefits:

- 2 sizes to suit home/builder requirements (700x400x100 and 500x460x100)
- Surface and flush mountable with optional Adjustable Flush Mount Trim Kits (MHB5VT & MHB7VT)
- Height adjustable rails – place at any height in the cabinet
- Rails and distribution modules click into place
- Lockable cabinets (two locks on 700 mm Hub and one on 500 mm Hub)
- Knock outs for power point, cables behind modules, conduit on the top and bottom surfaces for all possible wiring/power requirements
- Rubber seal around the inner lip to keep dust out
- Ventilation holes on top and bottom of the door
- Can be also used to house alarms

The Home Wiring Hubs made by Micron come in two sizes. The MHB7V Lockable Home Wiring Hub is 700 mm high, 400 mm wide and 100 mm deep. The smaller MHB5V Lockable Home Wiring Hub is 500 mm high, 460 mm wide and 100 mm deep.

Both Micron Home Wiring Hubs offer an optional Adjustable Trim Kit for flush wall mounting.
